

Letter from the Chairman:

Our Mission:

Lets Go Back Tour & Concert Series Mission

“Let’s Go Back Tour & Concert Series

The “Let’s Go Back Tour & Concert Series” (Let’s Go Back) is a not-for-profit 501(c) (3) organization. Is a personal passion for me coming from a home full of economic and social hardships. My vision and mission is to address some of the social and economic issues that generally have a more adverse impact in communities of the under-served. These areas tend to be more great engulfed in stress, despair, and a diminished sense of neighborhood pride.

The Lets Go back Tour Concert Series brings free upscale Live Concerts to these communities throughout the United States. These premium concert series focuses on the residents, both children and adults alike, to enable them to enjoy a major event in their own community totally free. The level of performers that we feature is the same that command top dollar for paid performances of the same magnitude.

These concerts feature some of the top selling recording Artists from the 70s, 80s, 90s, and today’s present Soul, Pop, Country. Caribbean Reggae, Latin Salsa, Bachata, R&B, Jazz, Funk, Disco, Gospel, Hip Hop.

The benefit of these premium concert series to the community is added notability, an influx of new tourism commerce to local businesses, and increased retail revenue into the community.

You may ask, why bring The Lets Go Back Tour & Concert Series to your County?

More importantly, to brings together the residents of the community in concentrated numbers in one central location. The community gets bragging rights for having these events in their backyard. It allows for local and national corporations, services, and city officials to connect to thousands of potentially new clients and/or retail customers.

We search out key locales to serve as a backdrop for our concerts to promote the beauty and growth within that community. Typically we select locations within the State that have no concert series for its local Residents. Usually other localities in that state have hosted their own concerts, inconveniently causing outer residents and surrounding districts to have to travel quite some distances to enjoy these events. We strive to give these communities a concert series that would truly highlight its magnificence and that could benefit from the influx of dollars that are typically brought into other localities.

Thank you for all your great support.

Raymond Chandler, Chairman/ CEO
